We forgot how does it feel holding pure hands

Imagine you feel bad and you are getting sick

And nothing what is tried is doing any trick

To die alone in separation

There is not even any moment to say goodbye

To be with you is my purpose

without you I am feeling worthless

I will fight for you until the end of time

that we can no longer protest
d **G** **C**
We're all forced to live at distance else we die

C **F** **C**
For all the time we lost we won't get compensation

We shouldn't wait to help each other

Every sister, every brother

We only have this little planet left for us
